

DALTON RICHMOND

After tremendous response from the first year of playing live in 2013 under WET PAiNT, Dalton Richmond takes a step back from behind the moniker to play and release by his birth given name. Having some stellar releases and great live performance opportunities in the works - the coming years see no halt for the 23 year old producer from Arkansas. He stepped foot on stage for his first time opening for Big Gigantic and HeRobust to a sold out crowd at the well respected Georges Majestic Lounge and has kept the momentum up ever since.

This young artist has played with the likes of national touring artists ranging from Gramatik, Minnesota, The Floozies, Marty Party and even foreign producers Koan Sound and Joker - in some of the country's most renowned venues like: The House of Blues and Lizard Lounge.

Dalton primarily focuses his energy on making completely original sexy / melodic / future bass music to ensure a one of a kind sound for the listener. His goal for the year is simple: to put out some of the most uniquely crushing production he can and perform as many shows as possible.
